DRIVING RANGE FAQ's

How do I maintain social distance on the driving range?

On arrival please check in at the first window adjacent to the steps where clear instructions will be provided on how to safely use our driving range from a member of staff. Here you will be issued with a sanitised basket and then enter to use the range machine. Sanitiser wipes are provided for you to wipe the machine buttons prior to use. There is also a bin full of sanitiser liquid should you wish to dip the basket of balls once dispensed. We have created passing points at the range by removing every other bay to ensure social distancing can be achieved should a fellow customer be walking in the opposite direction.

Do I need to book in advance?

No, please turn up as bays are single use only and on a first come, first serve basis. If no bays are available, you will be asked to wait in a social distanced queue immediately outside the range.

Can I play with members of my household?

Each bay is reserved for single use. If you arrive with members of your own household, each of you will require a bay in order for the walkway behind each bay to maintain a 2 metre passing space.

How do I pay?

If you are topping up a range card, please do so at the Pro Shop. If you are only purchasing a basket of balls please use the debit card reader attached to the ball dispensing machine. Please note, we are not accepting any cash payments.

What cleaning and hygiene processes do you have in place?

On arrival, a sanitised basket will be provided. We ask you to return your used basket to an area marked for returns. Balls retrieved from the outfield are washed and sterilised before being recycled into the ball-hopper.
